Karaoke In London

Karaoke has been a global phenomenon for decades, and London's nightlife has embraced it like never before. Over the last five years we've seen huge growth in bookings — from intimate after-work parties and milestone birthdays to large corporate launches and brand activations. There's no better icebreaker, team-builder or party-starter than putting a microphone in someone's hand and watching them light up.

What We Do

Party Night London delivers fully hosted karaoke nights across the capital. Our hand-picked karaoke DJ hosts combine slick technical setups with personality in their hosting. We run weekly residencies at a network of London venues and bring the complete experience — PA, screens, microphones, software, and catalogue — directly to private and corporate events.

PRIVATE EVENTS

How Does It Work

Booking is simple. Once your event is confirmed, we send through our extensive karaoke song catalogue so guests can start picking favourites in advance. On the night, your DJ host arrives with everything needed to get the party started:

- Two wireless microphones for guests, plus a host mic
- Laptop with professional karaoke software & DJ controller
- Printed song-book binders, request slips and pens

Guests browse the binders, write their picks on request slips, and the host calls singers up in order. We host interactively throughout.

Song Catalogue

Thousands of tracks across pop, rock, R&B, indie, hip-hop, country, musicals and disco classics. Send your must-haves ahead and we'll do our best to add them in time for the event.

WHAT'S INCLUDED IN EVERY BOOKING

Host DJ • karaoke software & catalogue • two wireless mics + host mic • DJ controller • setup & pack-down • PAT-tested equipment.
